The Federal Emergency Management Agency (FEMA) has developed this series of mitigation planning how-to guides to assist states, communities, and tribes in enhancing their hazard mitigation planning capabilities. These guides are designed to provide the type of information state and local governments need to initiate and maintain a planning process that will result in safer communities. These guides are applicable to states and communities of various sizes and varying ranges of financial and technical resources. This how-to series is not intended to be the last word on any of the subject matter covered; rather, it is meant to provide easy to understand guidance for the field practitioner.
