Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The petroleum industry is among the most lucrative and most important in the world, and its impact within the realm of international politics is tremendous (although it can be overstated). Taking a well-balanced and objective approach to the complicated web of political and economic threads that make up the fabric of the oil industry, Falola and Genova introduce the most salient aspects in clear language, offering cogent and up-to-date information about the countries, companies, international organizations, and people who shape the contemporary history of the black gold. Despite the need to learn how to exploit alternative energy sources before the oil runs...
