RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 44 pages. Original publisher: Washington: U. S. G. P. O. , 2009. LC Number: KF27 . H5733 2007i OCLC Number: (OCoLC)469064707 Subject: Nuclear activation analysis -- United States. Excerpt: . . . 11 vice modeling, nuclear materials production, radiochemistry and associated specialized facilities, advanced computations and simulations, and the physics and chemistry of fissile materials have been sustained in large part by leveraging off activities carried out in NNSAs nuclear weapons program. In the following discussion, we address some of the details of DOE's efforts in support of technical nuclear forensics. Pre- and Post-Detonation Nuclear Device Missions NNSAs Office of Emergency Operations provides operational capabilities and support in the following areas in addition to its direct support to the Attorney General in the render safe mission for interdicted nuclear devices in the United States: Develop and sustain pre-detonation nuclear device forensics concept of operations and associated capabilities. Take custody of the rendered safe nuclear explosive devices and support the collection of material samples and other forensic data from such devices. As part of the DoD-developed concept of operations for the post-detonation mission, support ground sample collection after a nuclear...
