Then this is the book for you. This book was created by an entrepreneur for entrepreneurs. All true entrepreneurs know that there are never enough hours in the day. We are impatient and want information now. Unfortunately most blog posts are written with a hidden agenda and therefore do not answer our questions, whilst books take pages rather than lines just to make a point. Rather than just getting tips from one person in each field, you will hear tips from many different experts. This allows the reader to get a rounded view on each topic rather than having to rely on the advice of just one person. Not only does this make the information more reliable but it has also helped create a long list of tips that you are unlikely to find anywhere else. The Crowdsourced Guide To Business will save you both time and money.
